

Materials

Stretch 

Bend 

Squash 

Twist 

Vocabulary

Material	What something is made from.
Absorbent	Able to soak up liquid.
Brick	A block made out of dried clay.
Elastic	Able to resume its normal shape after being stretched.
Fabric	Cloth produced by weaving fibre.
Flexible	Bends easily without breaking.
Opaque	Not able to be seen through.
Property	How we describe a material.

I invented the air-filled rubber tyre for my son's tricycle in 1887.

JOHN DUNLOP

What I need to know:

Metal

Wood

Rubber

- Materials feel different when we touch them. 
- Materials look different. 
- Materials have different properties.
- Some materials can be used for different things.
- Some materials are not suitable for everything.
