File Types

- Everything you create on a computer or tablet is called a file.

.mp3
.wav

.jpg
.pdf

.mp4
.mov

.doc
.ppt

What I need to know:

- Multimedia is something made up of more than one of text, images, audio and video.

- Websites can be used to research topics.

- Epub is short for Electronic Publication and is a file type for eBooks.

- Google Earth can be used to explore different parts of the world.

FAKE NEWS

- Articles written a long time ago can be out of date.
- Reading the article and not just the headline can help determine whether it is Fake News or not.

Filming Tips
